NOTE FOR:

FROM : VC/NIC

Attached is a copy of a draft memorandum covering the subject we discussed on Friday. This incorporates the first reaction comments by the SRP with one exception. One or two members of the SRP initially held to the belief that their comments should be matched up with the draft estimate in the Director's office by your and efforts. I believe that I have persuaded them that it is more efficient to match their comments with the estimates before it goes to the Director's office. Do you have any comments or suggestions on this draft?

NOTE FOR:

FROM : VC/NIC

Please review this second draft based upon our discussion yesterday. You will note that I accommodated all your points except the one about matching the draft estimate and SRP comments in the DCI's outer office. I continue to believe that packaging the estimate and SRP comments by the NIO is the most efficient and error-free way to lighten the burden of review for the Director. Further discussion would be welcome, however.
